SUMMARY

I am a third-year B. Tech Computer Science student specializing in Artificial Intelligence and Machine Learning. I have hands-on experience in handling academic projects, competing in hackathons, and collaborating on innovative tech initiatives. I am passionate about exploring cloud technologies, data engineering, and implementing creative solutions to complex problems

EXPERIENCE

Intern

Teachnook

📅 08/2023 - 09/2023 📍 Virtual

A startup focusing on educational enhancements using technology

- Developed AI models using Python and TensorFlow
- Assisted in data analysis and visualization
- Collaborated with a team on a machine learning project
- Completed with a certificate of achievement

PROJECTS

Invasive Species Detection

📅 06/2024 - 10/2024 📍 Chennai, India

Invasive Species Detection

- Developed a machine learning-based system for detecting invasive species
- Utilized image recognition and classification algorithms

Hand Gesture Recognition

📅 02/2024 - 04/2024 📍 Chennai, India

Hand Gesture Recognition

- Developed a real-time hand gesture recognition system
- Utilized deep learning techniques for gesture interpretation
